Seventy-one per cent of earth coverage is water. Yet, only 3 per cent of surface water is pure.

Adding to our woe, rapid urbanisation, exploding population, spreading industrialisation Etc., have increased the demand for pure drinking water phenomenally.

What makes the issue complex, however, is the fact that there is no single solution to water impurity, as claimed by many water-purifier brands you know.

The advantage of Scott Lumin is that we understand this complexity and handle it comprehensively. We customize our product according to your need.
