Blue Mount

Sabse Pure. Sabse Healthy.

We are a new-age water purifier brand which originates from India to serve the people of worldwide. We have taken a challenge to provide 100% pure and healthy water in every household. We study and understand the need of pure water for every individual, the water present or accessible for consumption and the purification hassles which most purifiers bring with themselves, and after immense research, have innovated products which cater to each of these requirements perfectly. We have one motive to provide the pure & healthy water for one and all.

We bring a wide range of technologically advanced water purifiers which will suit water needs of various households & Industries

Our Vision:

To become an answer/one voice for all kinds of consumable purification needs worldwide lead by innovation and spreading awareness about healthy and pure lifestyle.

Our Mission:

To help people be healthy while being the top most consumer-centric company in India.

Blue Mount Advantage

Fastest Growing

Blue Mount, a leader, an innovator and the fastest growing water purifier company and India's first Alkaline RO provider is trusted by thousands of satisfied customers and relied upon by partners.

Safety and Quality

An ISO 9001:2008 company, we have a highly qualified team of experts completely devoted for crafting a technology which is powerful, safe and of superior quality. Our products conform to the highest certifications such as TUV, CE, Spectro and WQA India.

Widest Range of Products

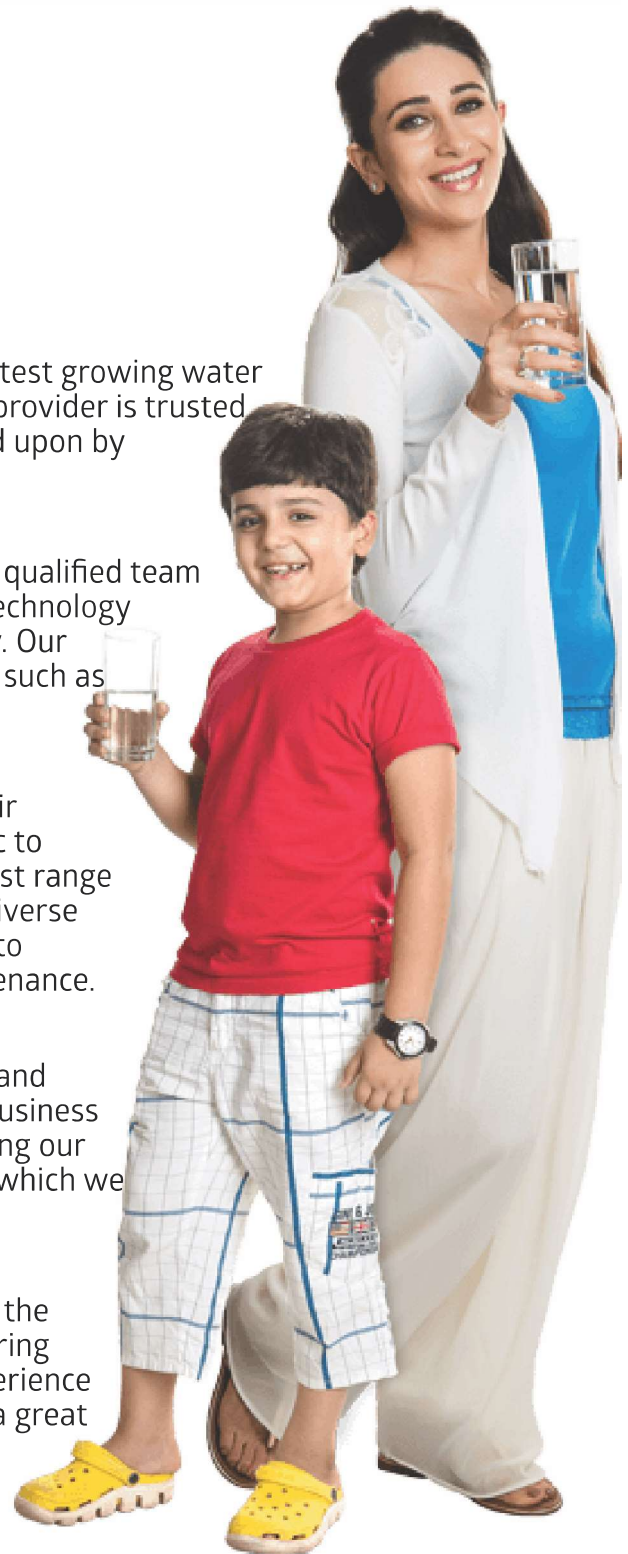

Keeping the diversity of Indian people and their needs in mind, from Online to offline, domestic to industrial, we have water purifiers of the widest range and it is growing day by day. We also have a diverse range of separate parts which equip purifiers to perform better and assist users in easy maintenance.

Creating milestones nationwide

While we are proud of having one of the best and widest service network and with over 4000 business associates nationwide, we're now strengthening our strong relationships in the emerging markets which we believe will be a significant growth.

Great Leadership

We are proud to be lead and backed by one of the most esteemed people of the industry. They bring with themselves great expertise, years of experience and worthy principles. We combine and form a great vision to serve every household with great products in the most economical and efficient manner

Anti-Oxidant Alkaline Water Technology

Anti-Oxidant Alkaline RO purification technology provides Purification by Alkaline RO combined with Alkaline + Carbon + Sediments filter equipped with LED Display. The carbon and sediments filter remove both suspended and chemical impurities such as chlorine, pesticides and various organic chemicals. Its state-of-the-art Alkaline filter and RO collectively purify water while the pH filter maintains the pH level (8-9), ORP (-50 to -250) as well as minerals essential for human body.

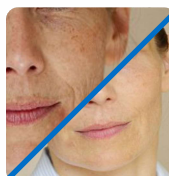

Weight Loss

Strong Bones

Increase Stamina

Glowing Skin

Mental Growth

Increase Immunity

Drinking Anti-Oxidant Alkaline Water Increases Life Upto 15 Years

Anti-Oxidants means anti-aging. We understand that antioxidants and anti-aging go hand-in-hand. As a result, when you start consuming antioxidant alkaline water, it works as an antidote to cell-damaging free radicals and is also the key to long-lasting youth. The difference can be seen here how Blue Mount can help you look younger than and can also increase your life by easily removing life-threatening agents from water.

25 years	38 years	55 years	OXIDANT ACIDIC WATER

			<h3>Benefits of Anti-Oxidant Alkaline Technology</h3> <ul style="list-style-type: none"> WEIGHT LOSS High oxygen water which helps to lose weight and keeps you energetic HEALTH Maintain body's water balance and increase longevity. Protect from Cancer, BP, Diabetes, Arthritis and many more. PHYSICAL EXERCISE Maintain energy levels and increases stamina IMMUNITY Strengthen your body against diseases SKIN For radiant skin and increase glow CHILDREN Boosts mental and physical growth

PARAMETERS OF PURE & HEALTHY WATER

pH TESTING

Approx Rs. 20/Ltr. Approx Rs. 60/Ltr.

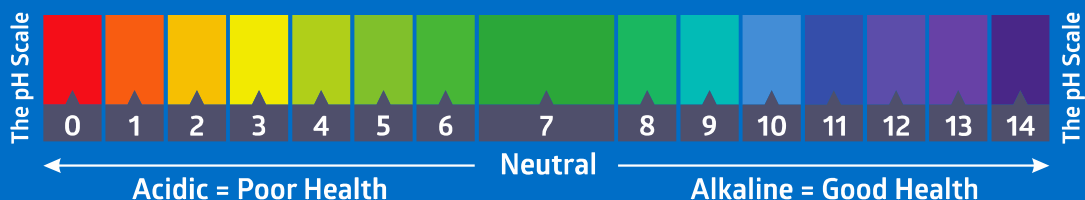

Blue Mount Water Passes all the Parameter Test of Pure & Healthy Water

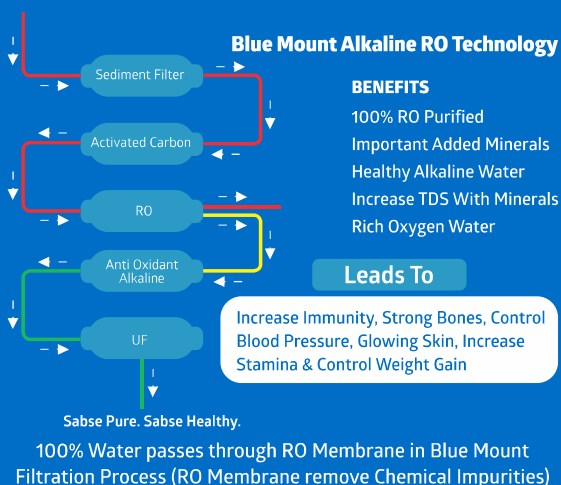

SAMPLE TEST REPORT OF WATER

PARAMETERS OF HEALTHY WATER	SAMPLE 1 (Raw Water) (Ground Water)	SAMPLE 2 (Raw Water) (MCD)	SAMPLE 3 (Other RO)	SAMPLE 4 (Blue Mount Alkaline RO Water)
TDS Upto 150 ppm	800	125	50	50
ORP -50 to -250	200	150	150	-150
pH 7 to 8.5	6.8	6.8	5	8

The test values are the approximate value which can vary area to area.

BLUE MOUNT FILTRATION Vs OTHER COMPANY FILTRATION

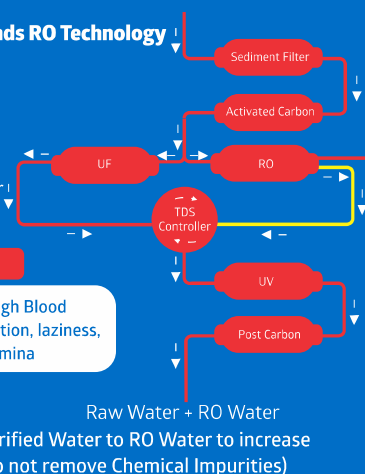

Misleading Popular Brands RO Technology

DISADVANTAGES

Not 100% RO Purified
No added Minerals
Unhealthy Acidic Water
Increase TDS With Raw Water
Poor Oxygen Water

Leads To

Indigestion, Weak Bones, High Blood Pressure, Cancer, Skin Irritation, laziness, Hypertension & Reduce Stamina

Recommended for

- Purifies all kinds of water
- Works on high TDS
- Eliminates toughest of impurities
- Energy efficient- power saving
- For health conscious people
- 100% chemical free water

Design

- Beautiful to look at
- Hygienic tap-outlet
- Push fit components
- A size that fits all kitchens
- Safe material

Storage and Installation

- Built-in 12 Litres storage tank
- Easy to install
- Economical to maintain

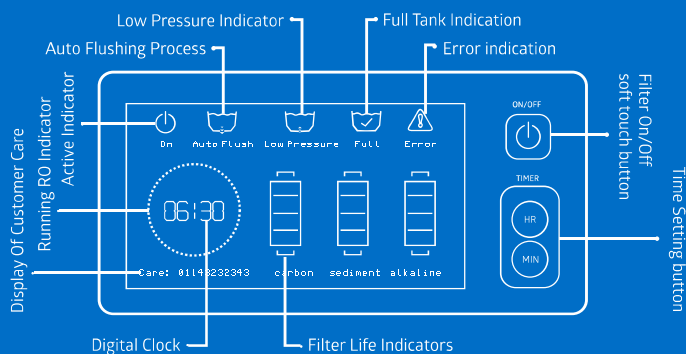

Care

Blue Mount Care

- Focused R&D
- Hold Highest Certifications
- 1 year of free on-site support

LED Display

Handy on and off button to increase power.

Indicates the non functioning and life of important filters

A clock to help people working in kitchen to multi-task and be on time.

Inbuilt 30 sec. auto cleaning to increase the life of RO by flushing the membrane.

It blinks on any error related to the non working of LPS, auto flush and filter malfunction.

Customer to get in touch directly with company for definite services

Blue Mount Product

Alkaline RO + UF + LED Technology

Blue Mount Elite Star

Product Code: BM51

Technology: Alkaline RO + UF Technology with LED Display System

Stages: Sediment + Activated Carbon + RO + Antioxidant Alkaline + UF Membrane

Storage: 12 Litres of purified water storage

Installation: Wall Mounted or Counter Top Design

Application: Suitable for purification of Brackish / Tap / Municipal Water

Operation: Fully automatic with filter life indicator & clock

Product Dimension: 16.7 (L) x 9.9 (W) x 21.1 (H) inch. with tap

MRP 18,990/-

- ◆ 100 GPD Pump
- ◆ LED Display
- ◆ Maintain pH (7.5 - 9)
- ◆ Smart Protector
- ◆ UF Technology
- ◆ Digital Clock
- ◆ 18 Ltr/Hr Purification Capacity
- ◆ Auto Flushing
- ◆ Filter Life Indicator
- ◆ Decrease ORP (-50 to -250)
- ◆ Error Indicator

Ultra Filtration Technology

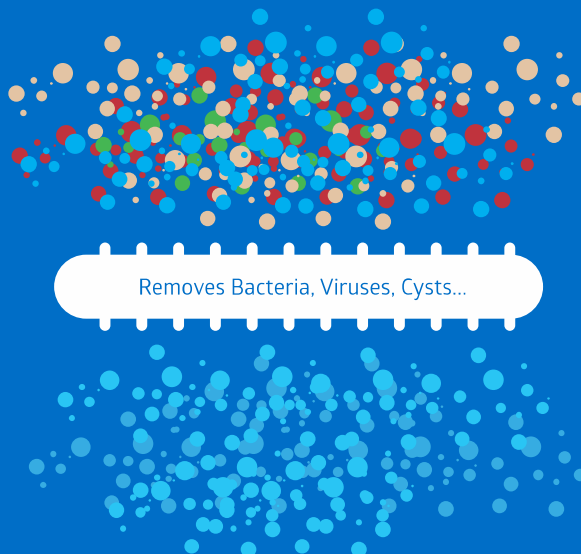

Blue Mount's superior UF (Ultra Filtration) technology allows purification at high flow rate. Idol & Idol+ Models work online while Idol Gold & Idol Star are Storage Water Purifiers. It comes equipped with a 0.01 micron pore diameter UF membrane which removes harmful micro-organisms such as bacteria, viruses and cysts while allowing essential minerals to pass.

It is a combination of sediment cartridge, which filters suspended impurities like fine sand and clay; activated carbon cartridge and silver impregnated carbon, removing all chemical impurities like chlorine, as well as color and odour from water thus making water pure to drink.

Silver Impregnated Carbon

Blue Mount introduces Silver Impregnated Carbon filter with UF filtration as disinfectant, more effective in controlling growth of bacteria and other micro-organisms.

Due to its antimicrobial and antiseptic properties silver impregnated carbon is used as absorbent in domestic water purifier. It removes bacteria & viruses, enhances the taste of water & makes drinking water crystal clear.

Ultraviolet Technology

Ultraviolet sterilization is useful for targeted elimination of microbes. It ensures that the water is 100% free from bacteria, viruses and other impurities and ideal for consumption.

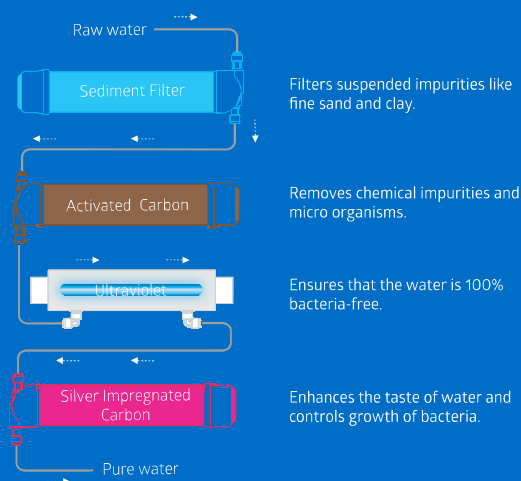

Blue Mount state-of-the-art online UV technology uses four-stage purification method. First is Sediment cartridge, which filters suspended impurities like fine sand and clay from the water. This water is then double purified by Activated Carbon cartridge and Silver Impregnated Carbon removing all chemical impurities like chlorine, as well as colour and odour from the water.

Shine+ purifier contains transparent storage tank that is insect-proof and does not make water smell bad.

Silver Impregnated Carbon

Blue Mount introduces Silver Impregnated carbon filter with UV filtration as disinfectant, more effective in controlling growth of bacteria and other micro-organisms.

Due to its antimicrobial and antiseptic properties silver impregnated carbon is used as absorbent in domestic water purifier. It removes bacteria & viruses, enhances the taste of water & makes drinking water crystal clear.

Gravity + Minerals Technology

Blue Mount Gravity technology is an advanced purification system for basic water purification.

A non-electric water purifier comes with Micro Filter + Activated Carbon + Sediment Filter + Minerals. Water is filtered from suspended and chemical impurities, sediments and microbes to a certain level.

This does not use any chemicals to purify your water and yet ensures it's safe and healthy nature for consumption.

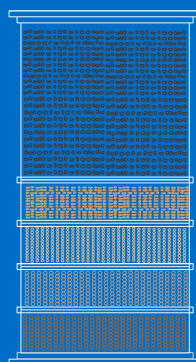

Silver Impregnated Carbon

Blue Mount introduces Silver Impregnated Carbon filter with Micro Filter as disinfectant, more effective in controlling growth of bacteria and other micro-organisms. Due to its antimicrobial and antiseptic properties silver impregnated carbon is used as absorbent in domestic water purifier. It removes bacteria & viruses, enhances the taste of water & makes drinking water crystal clear.

Micro Filter

Removes dirt, debris, and bacteria out of water.

Activated Carbon

Removes chlorine, organic chemicals, unpleasant odors & colors and improve taste of water.

Sediment Cloth Filter

Removes dirt, sediment and carbon particles

Mineral Stone

Continuously release over 20 types of minerals like calcium, potassium, magnesium, iron, zinc and other trace minerals.

Antibacterial Ceramic Ball

Antibacterial ceramic ball can get rid of water's bad smells and prevent bacteria's creation.

Zeolite Ceramic Ball

Zeolite balls absorb free radicals and viral particles.

Far Infrared Ceramic Ball

These balls emit far infrared rays, produce micro-cluster water, strengthening the body's resistance to infectious diseases

Blue Mount Industrial Purifiers

We believe that purified healthy water is a right for every human being, then why just limit water purifiers to households. Blue Mount holds expertise in industrial range such as Hot & Cold Dispenser, Chillers & Water Purifiers which are highly efficient and reliable, used across industries and application. Built with Advance Blue Mount Technologies to suit everyone's needs. The purifiers are customizable and special attention is given to their performance, quality and even looks. Now you need not to think twice to bring the purest healthiest and tastiest water for all.

Recommended for

- Works for Small & large Scale Usages
 - All Industries
- Largest and highly advanced
 - Purifies all kind of water
 - Chemical free water

Storage and Installation

 - Size variant
- Exclusive for your need

Hot & Cold Dispenser Comes with

- Hot, Cold & Normal Water Dispenser
- Alkaline RO Technology with Computerised LED Display System
- Easy conversion from online to offline with Water Jar

Alkaline RO with Hot & Cold Water Technology

Blue Mount's online water dispenser are built on the most advanced Alkaline RO purification technology which maintains pH (7.5 to 9) and decrease ORP (-50 to -250) with LED display to provide you with the best experience. These chiller and hot - water dispensers are perfect for all commercial use as they have large capacity, high output rate, compact structure and are most efficient in power consumption. So get the best of it all - purest, healthiest, tastiest hot and chilled water.

Min. Inlet Pressure/Temp:	0.3 kg/cm ² , 10°C	0.3 kg/cm ² , 10°C	0.3 kg/cm ² , 10°C
Max. Inlet Pressure/Temp:	3.5 kg/cm ² , 35°C	3.5 kg/cm ² , 35°C	3.5 kg/cm ² , 35°C
Stabilizer Required:	500 W	775 W	775 W
Storage Technology:	Cold & Normal Water	Cold Water	Cold Water

- ◆ Fully Automatic ◆ Plug & Play ◆ Suitable For Purification of Brackish/Tap/Municipal Water ◆ Dual Thermostat ◆ Filter Life Indicator
- ◆ Smart Protector ◆ Auto Flushing ◆ Digital Clock ◆ Error Indicator ◆ Customer Care Number ◆ LED Display
- ◆ Alkaline RO ◆ Maintain pH (7.5 - 9) ◆ Decrease ORP (-50 to -250) ◆ Ultra Violet Filtration

*Cool 50/60/80: Cool Purification/ Cooling/ Storage

Blue Mount Product

Alkaline RO with Cold Water Technology

Blue Mount's online water coolers are built on the most advanced Alkaline RO purification technology maintains pH (7.5 to 9) and decrease ORP (-50 to -250) with LED display to provide you with the best experience. These chiller water coolers are perfect for all industries and commercial use as they have large capacity, high output rate, compact structure and are most efficient in power consumption. So get the best of it all- purest, healthiest, tastiest and chilled water.

Customised Alkaline RO With Chiller Are Also Available

Small Scale Industrial Alkaline RO

Blue Mount brings exclusive models which works on highly advanced Alkaline RO technology maintains pH (7.5 to 9) and decrease ORP (-50 to -250) for industries and commercial usage. With high flow rate, online purification, membranes which prevent scaling and customizable design, it gives 100 % pure and healthy water without any compromise on quality of water at a very economical running cost. Now never compromise on drinking water for your customers, workers, guests or yourself.

Customised RO or Alkaline RO Machines for Industrial & Commercial Use are also Available

UV + Silver Boost

Ultraviolet sterilization is useful for targeted elimination of microbes. It ensures that the water is 100% free from bacteria, viruses and other impurities and ideal for consumption. Blue Mount state-of-the-art online UV technology uses 4 stages purification method. First is Sediment cartridge, which filters suspended impurities like fine sand and clay from the water. This water is then double purified by Activated Carbon cartridge and Silver Impregnated Carbon removing all chemical impurities like chlorine, as well as colour and odour from the water. The UV system Comes with fully covered strong metallic body which works automatically when they are installed with pure water tanks of school, colleges, restaurants all official & commercial place.

Water Vending Machine/ATM

Blue Mount brings you Endura Water Vending Machine/ATM that is compact in size and is very easy to operate. A machine that gives consumer purified & chilled water no matter whether they are carrying coins or card. A card reader and coin mechanism make its operation easy, reliable and the most efficient on all fronts.

Consumer want pure, healthy and cold water and with Blue Mount Endura , they get 100% safe Alkaline water from Anti-oxidant Alkaline technology which maintains pH (7.5 to 9) and decreases ORP (-50 to -250) that is completely pure, contaminant-free and suitable for everyone.

Blue Mount Water Vending Machine that eliminates all the design flaws and operational issues found in almost every other machine available in the market.

Blue Mount Water Vending Machine is quick and convenient. It doesn't require any attendant. The machine runs on multi- stage water filtration technique of sand filter, iron remover, highly activated carbon, anti-scalant dosing, RO and anti-oxidant Alkaline technology.

Blue Mount Water Softener

The main purpose of using water softeners is to make "hard water" soft. Inner city areas and places with hot weather, lesser rainfall, and a soil highly rich in minerals usually contain hard water.

It is easy to find out if your water is hard or soft. Horrid white deposits inside your utensils and appliances that use the tap water are an indication of hard water.

The two main elements in hard water are calcium and magnesium. They cause the "lime scale" to build up on all the surfaces and even inside your pipes. These are the two elements that are treated using water softeners.

They completely remove calcium and magnesium from water before the water runs through the system. These are usually the salt based water softeners.

The water softener must be checked once every month for best performance. Moreover, the salt level must be kept at least at half the maximum level at all times.

Reduces hair loss

Stops skin ailments

Pre Treatment for Reverse Osmosis plants, boiler feed and cooling towers

Increase the life span of expensive kitchen appliances

Reduces plumbing problems from scale deposition on bathroom fittings & tiles

Water Treatment in Housing societies, hotels, shopping malls, and corporate parks, bungalows, institutions etc.

- Our hair shall retain the rich texture and will become shiny.
- Usage of soft water will prevent your hair becoming brittle and eventually breaking down.
- Your skin will stay soft and smooth.
- Soft water will restore the rich lathering of your soaps and shampoos thus reducing usage cost by more than 50%.
- Glass-ware and kitchenware will stay shiny.
- Fabrics last longer and stay white without the dingy gray caused by hard water. Usage of soft water will provide softer, brighter clothes and will extend their life as well.
- Life of all appliances such as coffee maker, dishwasher, geysers and washing machines shall be enhanced by using soft water.

Customised Iron Remover for Industrial & Commercial Use are also Available

Water Conditioner (To Soften Hard Water For Domestic Use)

Scale formation has been a problem for many industries and homeowners. To address these challenges, we have introduced the Blue Mount Harmony Water Conditioner, a magnetic water softening solution, which is free from harmful chemicals and is a non-electric appliance. It not only reduces the risk of scale formation on pipelines, bathroom fittings and in appliances, but it also helps you save more on energy bills and is completely safe and easy to use device.

Product Code: BM99

Blue Mount Harmony Water Conditioner

MRP Rs. 23,500/-

PRODUCT	Water Conditioner
Flow Rate/Capacity (Max.):	Upto 3000 Litres Per Hour
Cylinder Diameter:	76.5 mm (3 inch)
Cylinder Height:	385 mm (15.1 Inch)
Weight:	3.5 kg (Approx)
Technology Type:	Green Water Technology
Mode of Operation:	Manual
Material of Construction:	SS-304
Pipe Line Size (In/Out):	3/4" Inch
Max. Operating Feed Water TDS:	2000 PPM
Max. Cylinder Operating Pressure:	10 Bar
Min. Inlet Pressure / Temp:	1.8 kg / cm ² , 10 °C
Max. Inlet Pressure / Temp:	3.5 kg / cm ² , 35 °C

- ◆ Zero Maintenance
- ◆ Stop Skin Ailments
- ◆ Easy Installation
- ◆ 10 Years Life
- ◆ Reduces Hair Loss
- ◆ Reduce Scaling & Rust
- ◆ Increase Kitchen Application Life

Customised Water Conditioner for Industrial & Commercial Use are also Available

Blue Mount Super (Industrial Alkaline RO with Storage)

Widely in demand by many consumers, the Blue Mount Super is designed and finished by engineers using the right material and mechanism. With the ability to get customized storage capacity. The additional storage tanks are made of thick frame design to house sufficient water with longer life span and the storage tanks can be used and installed as per your convenience taking the space and your needs into account.

Operating Voltage:	24 Volt (DC)	24 Volt (DC)
Min. Inlet Pressure/Temp:	0.3 kg/cm ² , 10°C	0.3 kg/cm ² , 10°C
Max. Inlet Pressure/Temp:	3.5 kg/cm ² , 35°C	3.5 kg/cm ² , 35°C
Recommended for:	Upto 35 person	Upto 35 person
Storage Technology:	Normal Water	Normal Water

- ◆ Low Maintenance
- ◆ Easy Installation
- ◆ Inbuilt with Purifier
- ◆ Service Friendly
- ◆ LED Filter Life Indicator
- ◆ Low Power Consumption
- ◆ Ultra Violet Filtration

Customised Alkaline RO for Industrial & Commercial Use are also Available

Small Scale Industrial RO + Demineralised Plant

Industries like healthcare, electronics and pharmaceutical companies require purest form of water which can only be achieved through a Dematerialization Plant. It makes sure that no dissolved solids can sneak into water. For this purpose, Blue Mount has introduced a DM Plant that works effectively in providing the best possible solution in a cost-effective way.

The water available on earth contains many dissolved salts, chemicals that include cations of sodium including calcium, copper and iron. Normal water also contains anions such as chlorides, nitrates and sulphates. As a result, these dissolved chemicals create blockage in boiler tubes, and also form layers in cooling towers reducing the efficiency of work and equipment.

The deionization or demineralization process is completely based on safe ion exchange method where the salt-free water can be provided through cationic and anionic resin beds. As a result, the purest form of water comes out, meaning that you get the right composition of hydrogen ions and hydroxide ions in the water with the Blue Mount DM Plant.

Blue Mount Care

Care

Best in Class Support

Since Blue Mount designs, its purifiers and most of its components in-house, this makes its products truly integrated systems. Only Blue Mount care provides one-stop service support through its expert executives where most issues are resolved in a single visit. Contact us or carry the purifier to any of our authorized service provider for express- support and replacement service.

1 Year Warranty

Every Blue Mount Purifier comes with one year of free repair coverage through its limited warranty and up to 2 onsite servicing of complimentary support. It covers one time installation of the purifier at your doorstep and repair coverage of purifier parts for one year from the date of purchase. Blue Mount Care provides repair or replacement coverage, both parts and labour, from Blue Mount - Authorized Service Franchises. Service coverage includes most parts of which further details are in product manual.

Nationwide Network

We operate, distribute and service Pan India, making sure you have 100% pure and healthy water, anytime, anywhere.

Blue Mount Product

Blue Mount models work on set of consumables which need to be replaced at regular intervals with original Blue Mount Filters & parts to maintain the quality of your drinking water. We advise you to always replace them with Blue Mount Originals

Product Code: BM17 **Matrix Replaceable Kit** (Set of 3 Filters)

Specifications:
Weight: 720 gm (Approx)
Inlet/Outlet: 1/4" Pushfit Type
Color: White
Filtration: 5 Micron
Iodine: 1100 mg/g
Temperature: 10-35°C
Life: 5,000 Ltr (Approx)

CONTENTS: Sediment + Activated Carbon + PP Spun in Blister Packaging

MRP 990/- Master Packaging: 10
CBM Of Master Packaging: 0.09

Product Code: BM18 **Purity Replaceable Kit** (Set of 4 Filters Including Alkaline)

Specifications:
Weight: 1.06 kg (Approx)
Inlet/Outlet: 1/4" Pushfit Type
Color: White
Filtration: 5 Micron
Iodine: 1100 mg/g
Temperature: 10-35°C
Life: 5,000 Ltr (Approx)

CONTENTS: Sediment + Activated Carbon + PP Spun + NSF Certified Anti-Oxidant Alkaline Filter

MRP 2,190/- Master Packaging: 10
CBM Of Master Packaging: 0.10

Product Code: BM12 **Extra X** (10" Sediment Filter Set)

Specifications:
Weight: 680 gm (Approx)
Dimension (mm): 300 (L) x 115 (W) (Approx)
Inlet/Outlet: 1/4" (Jaco Type)
Color: White
Filtration: 5 Micron
Temperature: 10-35°C

CONTENTS: 10" PP Spun Filter, Housing, Elbow, Screw & Grits (1.5")

MRP 750/- Master Packaging: 15
CBM Of Master Packaging: 0.07

Product Code: 1F08 **White Mineral Cartridge for Oval Gravity** (Magna and Magna+) 6 Stage

Specifications:
Weight: 495 gm (Approx)
Dimension: 150 (L) x 102 (W) (Approx)
Color: White
Filtration: 6 Stages
Temperature: 10-35°C
Life: 5,000 Ltr (Approx)
Carbon Iodine: 1100 mg/g

CONTENTS: Sediment + Activated Carbon + PP Spun in Blister Packaging

MRP 325/- Master Packaging: 20
CBM Of Master Packaging: 0.09

Product Code: 5F04 **Anti - Oxidant Alkaline** (2.5" , 8")

Specifications:
Weight: 295 gm (Approx)
Dimension (mm): 200 (L) x 61 (W) (Approx)
Inlet/Outlet: 1/4" Pushfit Type
Color: White
Minerals: Ca, K, Na, Mg etc
Temperature: 10-35°C
Pressure: 5-100 PSI
Life: 4,000 Ltr (Approx)

CONTENTS: NSF Certified Anti-Oxidant Alkaline Filter 8" with Blister Packaging

MRP 1,490/- Master Packaging: 30
CBM Of Master Packaging: 0.07

Product Code: 5F16 **Anti - Oxidant Alkaline Slim** (2.5" , 20")

Specifications:
Weight: 1.810 kg (Approx)
Dimension (mm): 510 (L) x 71 (W) (Approx)
Color: Blue
Temperature: 10-35°C
Pressure: 10-100 PSI
Life: 50,000 Ltr (Approx)

CONTENTS: NSF Certified Anti-Oxidant Alkaline Filter 20" with Blue Mount Running Box
